

Ekahau Connect

The All-In-One Product Suite for Better Wi-Fi

Ekahau Connect™ is the first complete suite of wireless tools, giving you the confidence to manage every aspect of your wireless network.

- ✔ Design reliable, high capacity Wi-Fi networks
- ✔ Validate a new Wi-Fi deployment or optimize an existing Wi-Fi network
- ✔ Analyze and troubleshoot Wi-Fi issues in real-time

Ekahau AI Pro™

Powerful Wi-Fi planning and AI Design for the most reliable, best performing wireless networks – now including 6 GHz

- ✔ Design your perfect, blazing-fast 6 GHz network with the top tri-band wireless access points today
- ✔ Get ultra-fast, ultra-reliable Wi-Fi with smart tools for defining, designing and inspecting your Wi-Fi
- ✔ Supports legacy and modern Wi-Fi standards, including 802.11ax (Wi-Fi 6) and Wi-Fi 6E (802.11ax in 6GHz)
- ✔ Includes 4000+ Wi-Fi access points and antennas from all vendors

Ekahau Sidekick™

Allows for advanced precision Wi-Fi site surveys and spectrum analysis as the only professional measurement device.

- ✔ All-in-one expert device with two Wi-Fi radios and a spectrum analyzer for professional Wi-Fi site surveys and troubleshooting
- ✔ Plug-and-play operation on Android OS, iOS, macOS and Windows.
- ✔ Market leading precision for 2.4 & 5 GHz Wi-Fi spectrum with automated interference source identification
- ✔ Seven factory tested antennas are placed in the optimum orientation to deliver precise and consistent measurement accuracy
- ✔ All-day battery life removes the need for interrupting work to recharge devices at larger sites
- ✔ Supports all Wi-Fi standards, including the new 802.11ax (Wi-Fi 6)

Ekahau Survey™ for iPhone & iPad

Offers a full mobile survey solution enhanced for iOS devices, delivering an intuitive user experience and fast responsive interface.

- ✔ Get productive faster with a powerful yet simple to learn user interface
- ✔ Deliver instant post-survey analysis with easy-to-read, crystal-clear heatmaps
- ✔ Autopilot Survey automatically tracks your location during a site survey—enabling full freedom of movement
- ✔ Locate detected access points automatically

Ekahau Analyzer™ for Android & iOS

Redefines the future of troubleshooting through faster, easier, and more accurate network health validation.

- ✔ Turns the device in your pocket into a powerful Wi-Fi validation & troubleshooting tool
- ✔ Every location can troubleshoot. On-site staff can quickly identify issues and relay info back to senior resources
- ✔ Super fast & high resolution spectrum measurements to identify interference sources
- ✔ Clear Pass / Fail Indication - Auto test in under 60 seconds to validate the health of your Wi-Fi network

Ekahau Capture™

Easily collects the data you need to conduct advanced troubleshooting and in-depth analysis of challenging Wi-Fi problems.

- ✔ Makes it easy for anyone to quickly capture Wi-Fi packets with Ekahau Sidekick hardware in order to detect complex problems
- ✔ Introduces a simultaneous dual-channel packet capture to diagnose difficult problems, such as roaming between APs

Ekahau Cloud™

Enables you to collaborate, share, and remotely track projects between multiple locations and teams, improving efficiency and preventing costly rework.

- ✔ Enables simultaneous collaboration across team members in the field and between the field and experts in the back office
- ✔ Local storage and simultaneous multi-person surveys are available with or without Ekahau Cloud
- ✔ Keeps your project files backed up and synced across devices and prevents costly rework in case your device gets lost or damaged
